Purchasing

Contact:		Phone:	
Quantity:		Expected Delivery Date:	
CDROM:	Reproduce using hard copy of master 1011646-000, CD-ROM ASSY, 221L PRODUCT CD.The master CD is stored in vault or with repro vendor. Or recreate file structure using the file: 221L_Product_CD master (1011646-000).zip attached to the record for the master CD (1011646-000, CD-ROM ASSY, 221L PRODUCT CD) in Agile. If using the zip file, make sure folder structure is recreated when unzipping (use folder names option).		
Labeling:	Print self-adhesive labels or silk-screen CD using files attached to the Agile record: 1011648-000 ARTWORK,LABEL,CD-ROM,221L PRODUCT. Include part number and barcode on the label or silkscreen. Position part number and barcode in blank area above Exabyte logo, as illustrated on the FPO drawing attached to the Agile record for the artwork. • Instructions on the left side of spindle: Arial, 6 points, black • Copyright information on right side of spindle: Arial, 9.5 points, black • Barcode label: 1011646-000, Code39eight.ttf or equivalent, 16 points, black Note: Use appropriate start/stop character before and after part number, if required. • Part number 1011646-000, Arial, 16 points, black If using printed labels, apply labels to completed CDs.		
Finishing:	Insert labeled, reproduced CD into CD sleeve 125.00029, or equivalent.Ensure that part number and barcode are visible through clear window in sleeve.		
Notes:	Deliver two random copies of the completed CD to Lynda Edgington.
