First Quality Hiring Team

## **Re: Director of Artificial Intelligence**

Dear First Quality Hiring Team,

Defining an enterprise AI roadmap, operating model, governance framework, and adoption program closely matches work I have led across AI, cloud, data, and regulated technology.

At Intelligent DataWorks, I own strategy, architecture, delivery, governance, security, operations, and a \$900,000 budget for a production AI platform supporting 70+ automations across more than 20 workflows. Selected work runs up to 50 times faster with 99.9% availability.

At AWS, I advised more than 200 enterprises and built global AI/ML and data communities totaling 180+ professionals. At MassMutual, I led architecture across privacy and AI-governance initiatives involving policy automation, transparency, bias, drift, human oversight, monitoring, and auditability.

My manufacturing and CPG depth is transferable rather than direct, and facility travel should be confirmed at 8% or less. Intelligent DataWorks is pursuing a strategic acquisition, and I am seeking a long-term operating role elsewhere. I would welcome a discussion about establishing a responsible, practical AI capability. Thank you for your consideration.

Sincerely,

Keith Steward, Ph.D.
